exceeded by nearly \$92,000,000, or 231 per cent, those of the correspoding week last year. Moreover, they were larger per cent, those of the correspoding week last year. Moreover, they were larger than the clearings of any preceding week this year except the week ending April 7, and were not equaled in any week last year. It is natural to attribute so great a change to stock operations, but the transactions last week were only 950,257 shares. This number has been repeatedly and very largely exceeded. Though the sales during the first week of December were only 540,000 shares, and the inpart attributed to that cause, it is evisation, which continued until the lat of change to stock operations, but the transactions hast week were only 950,257 shares. This number has been repeatedly and very largely exceeded. Though the sales during the first week of December were only 540,000 shares, and the increase in clearings may therefore be in part attributed to that cause, it is ovident that the larger portion was due to business. Probably the maturity of commercial paper made during the period of great promise and activity, in August or September, accounts for the greater part of the increase in clearings. New business here certainly has not been remarkably active, nor do exchanges at other cities indicate that correspondingly large payments were made elsewhere during the first week of the month. In the following the figures for San Francisco are for the week ending Friday, December 7; the others are for the week ending December 8:

A Million and a Hall of Dollars Spent in New York on Street-Cleaning Yearly, and the Thor-Coughtares Still in a Disgusting Condition.

NEW YORK, December 18 .- The streets New York, December 18.—The streets and alleys of Now York are in a terribly filthy condition: The street-cleaning service is very inefficient, and the street sweepers and contractors are wouldy incompetent and unfaithful. Taxpayers groan none the less under this infliction of dirt and stenches when they reflect that they pay \$1,500,000 per annum for street-cleaning purposes. The World gives the facts in detail to-morrow, and the following is taken from its doleful description; "Thirteen dead doze and cuts were found facts in detail to-morrow, and the follow line in staken from its doleful description:

"Thirteen dead dogs and cats were found in the streets. The stench arising from these and other refuse was sickening Garbage of every description, old shoes, hoop skirts, tinware, kitchen utensils, brinks and plaster were seen on all sides. Along Bleecker street, west of Broadway, the sidewalks were lined with garbage, barrels filled with ashes, dirt, and rotten vegetable matter. On King and Leroy streets, dirty straw, and stale garbage littered the sidewalks and alooked up the gutters. On Thirty-second street, between Seven and Eight avenues, the filth was terrible. The bottom of the street he gutters were lined with filth swept from the stores and lodging-houses. First and Second avenues. Will the Negro Ruce Die Out?

Chicago Tribane.

A correspondent of the Cincinnati Gazette, writing from Mississippi, raises the inquiry whether the colored race in the Southern States is tending towards extinction. He finds that a frightful rate of mortality prevails among the negroes living in the cities. In Nash; will e and Memphis most of the blacks are he a wretchedly bad condition. In Sahville the mortality among all shades of the colored people averages twice that of the whites, and in Memphis is nearly two and a half times as great. Winter Wheat Prospects. The New York Bulletin has published very full advices for some time past in regard to the crop of wheat sown this last fall in the Western States. The Chicago correspondent who has been furnishing these reports from time to time sums

them up in Tuesday's issue as follows: dent that the larger portion was due to heavy payments arising in legitimate the late sown wheat was not affected, business. Probably the maturity of commercial paper made during the sound was not affected, but has grown remarkable.

What Kissing Really is.

He was fresh from over the range, and he had just stepped in to get the latest news. He listened attentively to Jim while relating his experience the night previous with "his solid girl!" at a kiesing fray, when with a sneer of derision, he opened his mouth and said: "Oh! talk about kissing! go away! I have kissed in the north; I have kissed in the south; I have repeated the soul-stirring operation east and west; I have kissed in Texas and away down in Maine; I have kissed at Long Branch and at the Golden Gate—in fact, in every State of the Union; in every language and according to the manner and customs of every nation; I have kissed on the Mississippi and all I have kissed on the Mississippi and all its tributaries; but, young man, for good, sound kissing, give me a Caribon girl. When you feel the pegs drawn right through the soles of your feet that's kissing, that is."

FINANCIAL AND COMMERCIAL Wheeling Wholesale Market.

Wheeling Wholesale Market.

Office Dally Intelligences, Wednesday, Dec. 19.

The most noticeable feature in grain and produce lines so far this week are the large receipts of corn, oats and fied, about half of which have come in by river. This makes prices rather steady, although not quotably declined. In produce there are liberal supplies of butter, eggs and cheese and dried fruits, and prices in these staples ruled easy at unchanged quotations. In groceries there is a steady but moderate usemand, and provisions are moving slowly with large receipts of green meats. The jobbing lines of trade in general merchandise are moving steadily, with prices generally steady and unchanged.

APPLES—Remain in good demand with a firm market and rather light supplies of prime to choice. Sock. We repeat last week's figures. We quote at \$2,50a3,50 for prime to choice.

BEANS—I he demand is moderate, and trade is quies at unchanged prices. We quote at \$3,00a2,25 for prime white navy, other grades as to quality.

BUTTER—No alteration in the dull and sluggish character of the market for common and low grade butter can be reported.

sluggish character of the market for common and low grade butter can be reported. REMARKS.

The receipts this week have been quite full, as following the very heavy run of last week, and the quality of the receipts has been of rather an improved order throughout the pens generally. The demand has been fair only, being an Eastern demand—on speculation—of several hundred head, and that on the part of our home butchers, the latter to only a moderate extent. Packers seem to view prices as too high. Sales have been made at 5½ cents, few quotations being recorded at either extreme, but chiefly at 5½ cents.

REMARKS.

The present week is no exception to the rule, that the holiday week must be one of the dulleat of the very dull weeks that always prevail towards the latterend of the year, and in the Christmas week particularly. There is no outside demand whatever, and very little on the part of our home butchers. The market is almost staymant. Quotations 4.5½ cents, few sales having been made at the latter figure.

FORTY YEARS REPORE THE PUBLIC. DR. C. MOLANE'S Celebrated American

, WORM SPECIFIC VERMIFUGE,

SYMPTOMS OF WORMS. THE countenance is pale and

leaden-colored, with occasional flushes, or a circumscribed spot on one or both cheeks; the eyes become dull; the pupils dilate; an azure semicircle runs along the lower eye-lid; the nose is irritated, swells, and sometimes bleeds; a swelling of the upper lip; occasional headache, with humming or throbbing of the ears; an unusual secretion of saliva; slimy or furred tongue; breath very foul, particularly in the morning; appetite variable, sometimes voracious, with a gnawing sensation of the stomach, at others, entirely gone; fleeting pains in the stomach; occasional nausea

and vomiting; violent pains throughout the abdomen; bowels irregular, at times costive; stools slimy; not unfrequently tinged with blood; belly swollen and hard; urine turbid; respiration occasionally diffi-cult, and accompanied by hiccough; cough sometimes dry and convulsive; uneasy and disturbed sleep, with grinding of the teeth; temper varia-ble, but generally irritable, &c.

Whenever the above symptoms are found to exist DR. C. MILANE'S VERMIFUGE

Will certainly effect a cure. IT DOES NOT CONTAIN MERCURY In any form; it is an innocent preparation, not capable of doing the slightest injury to the most tender infant.

The genuine Dr. MCLANE'S VER-MIFUGE bears the signatures of C.
M. LANE and FLEMING BROS. on the wrapper. -:0:-

DR. C. MCLANE'S LIVER PILLS.
